

Dear Salon/Spa owner:

Thank you for joining our growing partner program. We like to think we are partners in growing the detox therapy business for you and our over 20,000 satisfied salons, spas, Nail studios, holistic medicine clinics and Chiropractors using the Detox for Life Therapy system to improve their personal health and grow their businesses. As your partner, our goal is to do all we can to maximize your profit from each therapy session you perform so do not hesitate to ask if you need anything from us, we will do all we can to accommodate you.

The salon-quality Detox for Life Therapy system, a \$1,300 value, is being provided to your business at NO CHARGE other than the small REFUNDABLE security deposit you paid when ordering! In addition, your Detox for Life package comes with:

- 📄 Brochures. 25 consumer brochures so clients may read about Detox for Life Therapy;
- 📄 Signage. You have an 8x10 easel to put on your countertop and an 11x17 color poster for the window or wall. These are important to use because if your clients do not know you offer detox therapy, they cannot order detox therapy;
- 📄 DVD video. A 9-minute consumer video to show your clients the benefits of detox therapy. This video will make you money if you show it to your clients;
- 📄 Training video. Each DVD contains instructions on how to use and maintain your Detox for Life Therapy system;
- 📄 We ask that you give the business opportunity a minimum of 6 months to grow, as any new venture will with care and promotion. After 6 months, you may return your system at any time for a full refund minus any outstanding invoices for supplies or therapy royalties.

Though you set pricing in your business at all times, average retail pricing for a single 30-minute detox therapy session is \$40 though many salons and spas charge up to \$175 if their location and clientele warrant it. Because the manufacturer recommends a series of 14 weekly sessions to thoroughly cleanse the body, then a monthly maintenance session after that, many salons/spas will sell a multi-therapy package of 10-20 sessions at a discount (say 10 for \$30 ea.) to increase upfront revenue. Another popular method of increasing per-client revenue is to offer combination pricing for detox therapy along with a hair coloring, skin treatment or a nail service.

Remember that your Detox for Life system comes pre-loaded with 20 therapy sessions that will return you an average of \$800.00 when used. When the 20 therapy sessions are used, the machine will shut off and you must call Detox for Life Therapy to order 20 more sessions for your machine and pay for the 20 you used.

Detox for Life Therapy will receive a small per-use royalty fee of \$5-\$7 AFTER YOU SELL the therapy sessions and pocket the full \$800 or more. This per-use fee covers cost of product, maintenance (you never have a repair bill), marketing materials video production and on-going marketing pieces and videos we will produce and deliver to you as new ways of increasing your detox revenue come to our attention.

A handwritten signature in black ink that reads "J R Rautio".

TOXINS ARE EVERYWHERE

We live in a world that adds chemicals to our bodies every time we breathe. Hair coloring, perfumes, creams, fabric softeners, treated water, nail polish, cosmetics and over the counter drugs, all add to the toxic mix. A recent scientific study found over 200 industrial pollutants in the umbilical cords of newborns indicating that pollutants begin invading the body even before we are born.

The foods we eat on a regular basis have additives or preservatives in them. The water we drink has been chemically treated and the air we breathe is contaminated with industrial waste, heavy metals, dust and auto emissions.

The Detox for Life Therapy system was designed and built specifically to address the problem of pollution, toxins and heavy metals imbedded in our bodies. Normal detoxing is a long, messy and invasive process. The Detox for Life Therapy foot spa system provides a thorough and efficient way to cleanse the body of these wastes in just 30 minutes.

The Detox for Life Therapy system uses ionic flow to charge the entire blood stream either positively or negatively as needed, attracting the pollutants, toxins, heavy metals and dust that have settled in the organs of the body and effectively flushes them out through the soles of the feet in just 30 minutes.

The process of detoxification also causes the glands and muscles to receive an enhanced supply of blood, oxygen and rich-nutrients, allowing them to work at maximum efficiency. Detoxification cannot harm the body. It simply cleanses the organs and brings your Body back into Balance with improved overall circulation and a sense of well-being.

Everyone is different and thus everyone will have a different reaction to the Detox for Life therapy session depending on lifestyle choices (i.e. smoking, drinking & diet), and age itself. Once you have had your first Detox for Life Therapy session you will see that the water in your footbath will be changed dramatically due to disbursed toxins in the water. These colors changes stem from the removal of toxins from corresponding organs are a clear indication of impurities leaving the body.

Though the Detox for Life Therapy system is not designed to cure disease, and makes no claim that it does, thousands of clients report having benefited from Detox therapy. Some of the benefits reported as a result of Detox therapy include:

- 🌿 **Pain relief.** Clients are constantly remarking on the fact that when they began therapy they had headaches, cramps, pinched nerves or any of dozens of other aches and pains. When therapy was finished, the pain was radically reduced or gone completely;
- 🌿 **Reduced swelling.** Many report a marked reduction in the swelling of feet, ankles and knees brought on by gout or diabetes after therapy;
- 🌿 **Arthritic pain and swelling.** Many people see relief from arthritic joint swelling and pain due to the removal of built-up toxins after Detox therapy, and;
- 🌿 **Improved well-being.** Stamina, euphoria and general well being are reportedly enhanced after Detox therapy.
